GAYNOR'S SON SENDS WIRELESS MESSAGE OF FATHER'S DEATH

Wilhelm der Grosse on August 9, 1910. The Mayor was on that occasion affinite to sail for Europe to take a much needed rest and had planned as the Sailed in Feeble Condition FIGHT FOR MAYORALTY

As He Sailed in Feeble Condition he, sailed away on the Baltic last Thursday.

The bullet fired by the Insane assassin lodged in such a position that the surgeons were afraid to attempt an operation to remove it. They feared the shock would kill their aged patient. So the leaden missile was allowed to remain in lodgment in the muscular system of the neck, where It became a source of continual annoyance to the Mayor.

"Nature," said the Mayor to his secretary, Mr. Adamson, the day before he sailed on the Baltic, "is making a tremendous effort to dislodge that bullet. The effort drives me to constant coughing and retching in my throat, which is terribly weakening and wearing on me. I cough so much I am afraid it is weakening my heart. Sometimes I feel as if my heart would simply burst in one of those coughing spells."

To a close friend the Mayor confided, something over a week ago, that he believed his right lung was practically disabled. After his coughing spells passed away he had great difficulty in breathing.

. The pitifully weak condition of the Mayor was apparent on the occasion of the notification that he had been nominated for Mayor at the City Hall on the afternoon of Wednesday, Sept. 3. It was a hot, humid day and the Mayor suffered exceedingly.

The Evening World was the only newspaper to call attention to the Mayor's obvious ill health. He was unable to stand for more than a few minutes at a time, perspiration poured from his forehead and face and his voice was so weak that he could not deliver his speech of accoptance but turned it over to Mr. Adamson to be read.

He was accompanied to the pier by his personal police attendant, Police Lieut. Kennel, of whom he was very fond, his son, Rufus, who is a newspaperman, and one or two relatives and friends. Before leaving the Mayor the lieutenant, who has guarded Mayors for seventeen years, expressed the wish that the Mayor would return in better health and spirits. The Mayor answered:

"I know that's how you feel, Billy, and I thank you. A little sea 2 trip, I think, will mend me all right."

NEWS OF GAYNOR'S DEATH - HELD BACK HOURS BY MIX-UP

The news of the death of Mayor Gaynor reached New York through a wireless message sent from the Baltic to Robert Adamson, the Mayor's secretary, by Rufus W. Gaynor, the Mayor's son and sole travelling companion. Inasmuch as the message was addressed to "Adamson, City "Hall," it is presumed that it was sent yesterday afternoon immediately after the Mayor passed away and that young Gaynor hoped to catch -Mr. Adamson before the latter should leave his office.

Young Mr. Gaynor's wireless was sent from the Baltie to the Marconi vetation at Crookhaven, Ireland. From there it was sent by land wire to the nearest cable station and did not reach New York until early this

Instead of telephoning the contents of the cablegram to Mr. Adamson at his home, the cable people sent a messenger boy with it to the City Hall. At 4 o'clock in the morning the City Hall is closed and locked, but the police substation in the basement is open. But the messenger did not go to the

He pounded on the doors until he awakened Joseph Ryan, the son of John Ryan, superintendent of the building. Mr. Ryan, having no idea what the message contained, receipted for it and agreed with the messenger to deliver it to Mr. Adamson upon his arrival at the City Hall. Along about 8 o'clock this morning somebody in authority at the

fice of the cable company bethought himself to call up Mr. Adamson at his home. The message was read to him and he hastened to the Elty Hall, arriving at 8.30 o'clock, when Mr. Ryan handed him the cable gram, which had been waiting there four hours and a half. Mr. Adamson, before leaving his home, endeavored to get into communiatton with Acting Mayor Ardolph L. Kline. Mayor Kline was not at his ome, No. 238A Cariton avenue, Brooklyn, and Mr. Adamson was informed that he had spent the night at the home of is son-in-law, Frederick L. chnell at Jamaica, L. I. Mr. Schnell has no telephone, so Mr. Adamson siged the police telegraph system to notify Jamaica headquarters to send a meer to Mr. Schnell's home asking Mr. Kline to start for the City salf at once. When the police messenger arrived Mayor Kline had departed for Manhattan in ignorance of the fact that he was actually Mayor of the city.

SENDS WORD TO GAYNOR FAMILY.

Secretary Adamson upon his arrival at his office in the City Hall proceeded to notify close political and personal friends of the Mayor of the contents of the cablegram. In the meantime he had communicated with Mrs. Gaynor at the Gaynor country home at St. James, but had no told her the full truth. This he refrained from telling until he had reached his office and was fully satisfied that the news was authentic. A wireless was sent to Rufus Gaynor requesting more particulars and asking him to open up communication with reference to plans for bringing the remains of the Mayor to New York.

About half an hour after the news was made public Fire Commis sioner Joseph Johnson, manager of the Mayor's campaign for re-election, called up The Evening World and asked if rumors he had heard about the death of the Mayor were true. He was deeply affected by the confirmation of the report and said that he was too much upset to talk about it.

The City Hall was soon crowded with office-holders, politicians and friends of the Mayor anxious to get more news from Mr. Adamson. Apparently the stricken son of the Mayor had not thought to send any further information, for nothing was received from him during the morning beyond his brief message bearing the tidings of his father's death.

In a letter to a friend, written on Aug. ! 30 last, Mayor Gaynor described the symptoms of the illness that had kent him confined at home during all the week. He ascribed all his trouble to the bullet that had been fired into his throat three years ago by the insane of-nos-seeker Gallagher. The letter was

My right lung, pneumogastric nerve, and stomach have again taken it into their heads that by combined and violent efforts they could succeed in casting this "flahbook" out of my throat which that bullet lodged there. But as in their former occasional attempts, they succeeded in casting everything out except the "fishhook," and have completely done themselves and me up in the bargain. And now the sore and exhausted lung, nerves. and cords and stomach have to be bathed and soothed for a day or two to get them into shape again. The attack of mechanical retching and vomiting lasted for over twelve hours. You can imagine the condiand stomach are so sore I can hardly these attacks are so rare. But we must all have our crosses, and I am

These members of my body which to do this thing now and then are just as foolish as are people you and I know, who want something done all at once which can only be done gradually and little by little. But they won't have it that way. And so to work they at once by violence, with the result that instead of doing it they do much harm and mischief and exhaust themselves.

STUNNING BLOW TO CITY, MAYOR KLINE TELLS PUBLIC.

BY DEATH OF GAYNOR Gaynor's Loss Hard to Repair, He Says—Will Order Public Funeral If Widow Will Consent.

> After conferences with members of the late Mayor's official family. Mayor Kline issued the following statement from the Mayor's office: To the Public:

I am inexpressibly shocked at the news of Mayor Gaynor's death. It comes to me as a stunning blow, and I know I speak for the people of this entire city when I say that in the death of Mayor Gaynor the city of New York has suetained a loss that it will be hard to repair.

For twenty-five years Mayor Gaynor has given his services unstintedly to the people of his city and the results of his work will be manifest for many years to come. He was a profound student of the problem of municipal government and it was the ambition of his life to reform and improve the conditions as he found them in our city government. Time alone will show the value of his labors in this direction.

I feel Mayor Gaynor's death as a personal loss. I knew the Mayor for twenty-five years. My first acquaintance with him began in Brooklyn while he was practicing law, and I had an admiration for him that I had for few men. I knew and respected him and he knew and respected me. My association with him in the city government was always of the pleasantest and most agreeable nature. When I said goodby to him on Wednesday of last week I little dreamed that I would never see
